The 6th Edition of International conference "Drug Discovery India 2019" will be on the theme "Breakthrough Research in Medicinal Chemistry". This unique conference will bring together the best minds in drug discovery and medicinal chemistry fields at a common platform to discuss and deliberate the breakthrough researches and approaches.

SELECTBIO - Drug Discovery India 2019

A plasmid is a small DNA molecule within a cell that is physically separated from chromosomal DNA and can replicate independently. They are most commonly found as small circular, double-stranded DNA molecules in bacteria; however, plasmids are sometimes present in archaea and eukaryotic organisms. In nature, plasmids often carry genes that benefit the survival of the organism, such as by ...
