Addressing Current and Future Challenges in Education

Addressing Current and Future Challenges in Education

Highlights We argue that viewing AR as a concept rather than a technology is more productive. We identify features and affordances of AR systems and applications. The instructional approaches adopted by an AR system are discussed. While AR offers new learning opportunities, it also creates new challenges. We provide solutions for challenges and suggest directions for future research.

Current status, opportunities and challenges of augmented ...

If you are required to be creative on demand in your daily work, you may find that a Design Thinking model suits your needs. Design Thinking is an approach for deeply understanding the audience and their challenges, in order to generate creative and effective solutions.

How To Use Design Thinking In Learning Experience Design

Instructor-led training (ILT) is the more traditional, formal version of training that takes place in a classroom in front of learners, while eLearning is web-based and can be taken at anytime from an internet-connected device.

Instructor-led Training vs. eLearning | EdgePoint Learning

Schools and districts today face steep challenges as they strive to improve outcomes and meet increasingly rigorous standards. Finding and retaining the right people, making the most of new technologies, and supporting the increasingly diverse social and learning needs of their students takes focused expertise. PCG helps schools and districts across the country address their biggest challenges ...

LTEC 2019 | 8th International Workshop on Learning ...

E-learning unit launched its funky project Espresso on the vibrant platform VUTela. We have reached a point at VUT whereby VUTela use has increased sufficiently for us to advocate for the deeper, more engaging use of VUTela that will foster improved teaching and learning in a blended delivery mode.

E-Learning - Vaal University of Technology

Discovery, wonder – how often do people use these words to describe learning in the workplace? Sadly, not nearly enough. Let's recapture the wonder of learning, together.

The Digital Youth Network is, at its core, a design-based research project. The research team works with DYN mentors, students, families, and other practitioners to better understand the impact of DYN initiatives and learning environments on youth, educators, organizations, and communities, identifying critical practices and informing iterations of the DYN model.
